Dear Marcin Jan Wachowski,

Thank you for your willingness to work with us and look into our case.

We are an Aerospace and Defense equipment's manufacturer Nippon Aircraft Supply Co., Ltd Japan. We request your legal representation in the collection of a debt owed us by a delinquent customer in Poland. Their name is AERO AIRCRAFT TECHNOLOGIES, Poland Based aviation company and they are owing us \$1,995,250.00. We have the invoice detailing the transaction as there was no contract involved since it's only a demand and supply transaction.

The company had some financial constraints in the past and therefore could not make payment. We are of the opinion that once our presence is established in your state via a legal representative, our customer will have no option but to comply with a payment request to avoid legal action and litigation. We believe that litigation should be applied as a last resort as we intend to preserve the relationship we have with our customer after payment is made. We do not intend to resort to litigation unless all other options are exhausted. We will however like the comfort of knowing that the option is available and let our customer know that litigation may be enforced if other options are exhausted.

Please have your standard fee agreement sent to me so that our board can decide on the conditions of your retainer.

Yours faithfully, Mr. Ryuji Kurihara Nippon Aircraft Supply Co., Ltd. ryujikurihara@nascojapan.co

Dear Mr Ryuji Kurihara

Thank you for your message. We will take care of your problem with great care.

Please find attached a copy of the document from the Polish national company register regarding your debtor. It appears that the debtor is active and there are no serious debt recovery proceedings against him.

We agree that the best solution will be to call the debtor for consistent payment and attempt to settle the matter amicably. If we reach an agreement, we will avoid a lengthy and costly litigation.

At the pre-trial stage, we propose our flat hourly rate of EUR per 1 hour net. Please send me documentation regarding the case, in particular electronic correspondence. Then we can estimate how many hours this stage will take. A personal meeting or teleconference would also be very useful, what do you think about it?

If you have any questions, don't hesitate to ask me.

Pozdrawiam/Kind Regards
